Dr. Jerry L. Hintze & **NCSS**, Kaysville, Utah

Preface

Number Cruncher Statistical System (**NCSS**) is an advanced, easy-to-use statistical analysis software package. The system was designed and written by Dr. Jerry L. Hintze over the last several years. Dr. Hintze drew upon his experience both in teaching statistics at the university level and in various types of statistical consulting.

The present version, written for 32-bit versions of Microsoft Windows (95, 98, ME, 2000, NT, etc.) computer systems, is the result of several iterations. Experience over the years with several different types of users has helped the program evolve into its present form.

Statistics is a broad, rapidly developing field. Updates and additions are constantly being made to the program. If you would like to be kept informed about updates, additions, and corrections, please send your name, address, and phone number to:

NCSS maintains a website at **WWW.NCSS.COM** where we make the latest edition of NCSS available for free downloading. The software is password protected, so only users with valid serial numbers may use this downloaded edition. We hope that you will download the latest edition routinely and thus avoid any bugs that have been corrected since you purchased your copy.

NCSS maintains the following program and documentation copying policy. Copies are limited to a one person / one machine basis for "BACKUP" purposes only. You may make as many backup copies as you wish. Further distribution constitutes a violation of this copy agreement and will be prosecuted to the fullest extent of the law.

NCSS is not "copy protected." You may freely load the program onto your hard disk. We have avoided copy protection in order to make the system more convenient for you. Please honor our good faith (and low price) by avoiding the temptation to distribute copies to friends and associates.

We believe this to be an accurate, exciting, easy-to-use system. If you find any portion that you feel needs to be changed, please let us know. Also, we openly welcome suggestions for additions to the system.
